

cont'd
D1

said vertical comb drive, when actuated, displacing said surface in a direction orthogonal to the plane thereof.

¹⁹
~~25.~~ (Amended) The displaceable surface of claim ¹⁸~~24~~ wherein said plural

D2 actuators are driven to tilt said [substrate] surface.

sub
E6

26. (Amended) The displaceable surface of claim 22 further comprising a mirror mounted substantially parallel to said [substrate] surface.

sub
E8

32. (Amended) The displaceable surface according to claim 28, wherein said layer is attached directly to said [reflective] surface.

D3

33. (Amended) The displaceable surface according to claim 28, further comprising a post attaching said layer to said [reflective] surface.

³²

~~34.~~ (Amended) The displaceable surface according to claim ³¹~~33~~, wherein said post is in a center of said [reflective] surface.

sub
E11

D4

39. (Amended) The displaceable surface according to claim [36] 21, further comprising an anchor for supporting said spring[s].

40. (Amended) The displaceable surface according to claim 22, wherein said vertical comb drive comprises plurality of cavities and teeth interdigitally mounted with said cavities, said [reflective] surface being attached to said teeth.

cont'd
D4

²⁸
~~41~~

(Amended) The displaceable surface according to claim ²⁷~~40~~, further comprising a top layer between the teeth and the [reflective] surface.

Please add the following new claims:

¹⁵

~~43~~ (New) The displaceable surface of claim ¹⁴~~21~~, wherein said surface is reflective.

44. (New) The displaceable surface of claim 22, wherein said surface is reflective.--

Remarks

Claims 1-26 and 28-44 are now pending in the present application.

Claims 19, 20, 30-32, 35, and 40-42 have been held withdrawn from consideration by the Examiner as being directed as non-elected inventions and species. The Examiner has rejected claims 21-26, 33, 34, 36, 37 and 39 and has held claims 28, 29 and 38 allowable if rewritten in independent form.

The Examiner is respectfully thanked for the careful consideration given in the present application. The Examiner's indication of antecedent basis problems in the newly presented claims is appreciated.
